Thinking Out Loud

By H. M. L.

Well, its time to speak out in meetin'. This labor graft is a stench in the nostrils of honest men, an abomination to patriotic men. Last week AFL organizers visited Nevada City. At the back door of one of the largest mercantile firms in Northern California this precious pair waylaid the clerks on their way to work. The clerks were offered $13 a day as carpenters to work at the cantonment (Camp Beale). Of course that is much more than honest clerks can earn anywhere in the United States.

"But," said the clerks, "we are not carpenters, we don't know the first thing about the trade." To which the two organizers replied: "You don't hafta. All you do is to show up with a hammer and saw. We do the rest. We see that you get on the job." And how much will this cost? A mere nothing. All the clerks would have to do to step into the big "labor' money, was to plank down $55 initiation fee, and $3 per month so long as they were employed. And, on second thought they would not need to plank down all the money. No? Just sign an order and we'll take it out of your paychecks at $2.50 a day until the fee is paid."

But what the organizer's did not say is that when the army inspector comes along and sees a ham giving a crude amateur exhibition as a carpenter, he motions with his thumb toward the gate and the clerk returns, if he can, to his old job, a sadder and poorer man. It usually takes the army inspector three days, at most, to dig out the wormy apples in the barrel. He hardly bothers to tell them what it is that spoils their act. He merely motions with his thumb. Utmost economy in firing.

These two labor gold brickers would have already been paid their "commish." They are, if you are a "liberal" thinker, simon pure patriots, who are out to get men to work in putting up army barracks for soldiers who are fighting the war for the four freedoms. It is reported reliably that thousands of men are needed at Camp Beale, that the work is way behind the schedule that was to see the job completed in October. This is probably true. So the AFL puts its back into the job of getting not competent men, but suckers to enroll as carpenters. Suchers to be fleeced first, fired presently, and left to shift for themselves after they have thrown up honest jobs they have won through long and faithful service.

Racketeers is too good a name for these organizing scamps. One good thing the totalitarian governments do with such human vultures is to stand them against a wall and shoot them. Only in a great democracy can so-called labor union agents put over a criminal fraud of this kind without even arrests. And they perpetuate these crimes under the sacred cloak of patriotism. It is enough to unsettle the gorge of a yellow dog.

But our faith in democracy persists stubbornly. We do believe at long last our Justice Department will catch up with these scoundrels and put them in safe keeping. We believe the day of reckoning will come shortly after the war is concluded. Just now, what with the job of licking the Japs and Huns to be done in a hurry, unless the war is to drag on indefinitely, it is perhaps not so important that slinking jackals who prey on sheep go unwhipped. Uncle Sam is putting everything he has into a mighty wallop against the jungle beasts. He can't stop now to hunt vermin in his own whiskers.

We hope, and we will confidently predict, that when the jungle beasts are hunted back to their lairs, the Department of Justice with its myriads of FBI men with nothing much else to do, will turn its attention to all those who have taken advantage of the present national preoccupation to fleece and rob their fellow citizens, who have, indeed, practiced banditry while the rest of us have sweat, wept or bled in prosecuting this war. A year's solid work in this great vineyard should yield us a grand harvest for our jails. Whether they are little yellow termites industriously battening on Camp Beale, or big saffron teredoes that grow oily and fat on war contracts, Uncle Sam's foot is big enough to cover and crush them all—when the war is done.

Every Resident Asked To Pledge War Bonds Purchase From Earnings

Before this week is over, every person in Nevada City will be contacted to pledge a portion of their current earnings for the regular purchase of War Bonds and Stamps.

This is Victory Pledge Week, and in a proclamation issued today by Mayor Benjamin Hall, all residents are urged to ...show the utmost courtesy and respect to the War Bond Workers and to cooperate with and assist them in every possible way to the end that their difficult task may be abundantaly successful and a credit to the entire community.

The Pledge to Democracy . . . Have You Signed Yours?

U. S. Treasury Department
Defense Savings Staff

PLEDGE FOR REGULAR INVESTMENT IN DEFENSE SAVINGS BONDS

ORIGINAL
Sec[illegible] pt.
(CONFIDENTIAL)

NOTE—This is not an order form. The Signer will buy Defense Savings Bonds by one of the methods listed below:

To aid the National Defense, I pledge that,

I will invest the sum of $_____ in Defense Savings Bonds (or Stamps) each ☐ week. ☐ month. ☐ _____

I will buy these Bonds:

☐ From a post office, bank, or other sales agency.

☐ By mail from the Treasurer of the United States, Washington, D. C.

☐ Under a Pay-Roll Savings Plan (or other similar arrangement for regular purchasing) in effect at my place of employment:

(Employer's name) (Employer's business address)

☐ Through a regular purchase plan installed by the following organization:

(Name of organization) (Address)

If you are already purchasing Defense Bonds systematically, please indicate the type of plan when signing this agreement. Also check here. ☐

I will faithfully fulfill this pledge for the duration of the War or so long as I am financially able to do so.

FOR VICTORY BUY UNITED STATES DEFENSE BONDS AND STAMPS

U. S. GOVERNMENT PRINTING OFFICE 16—26378-1

NEW PLEDGE CARD FOR BONDS AND STAMPS: Above is a facsimile of a pledge card, calling for the systematic purchase of Defense Bonds and Stamps, which every American citizen is now being asked to sign. The country must have billions of dollars to carry on the war. When you are approached be sure *you* sign one of these pledge cards for as much as you possibly can!

RED CROSS WORKERS WILL HANDLE PLEDGE DRIVE

The pledge drive is being supervised by the local War Savings Committee, headed by Mrs. Paul Kemper. The Red Cross captains and assistants are conducting the house to house canvass.

Nevada County's quota in the Victory Pledge drive has been set at $52,000 this month and Nevada City must pledge a large portion of that amount.

Moyar Hall's proclamation follows:

PROCLAMATION

WHEREAS, the United States Treasury Department, is asking that the earnings of every American resident be enlisted in a national program of systematic thrift; and

WHEREAS, many thousands of volunteer Red Coss Captains and workers, as their answer to a threat to democracy, will devote their own time and efforts, by visiting every resident of this great state, seeking his or her moral obligation in this time of financial need; and

WHEREAS, it is necessary that every man, woman and child in California sign a voluntary pledge to save regularly out of current income, through the purchase of War Savings Stamps and Bonds; and

WHEREAS, it would be a splendid token of our loyalty, if every resident of California, and the city of Nevada City in particular, should pledge to the extent of his or her ability, a stipulated purchase of Bonds and Stamps each month, until victory over aggression is achieved, such pledges being expressions of willingness to aid the nation in a critical hour, and not in conflict with pay roll pledges already signed by many of our workers who are doing their share without complaint.

NOW, THEREFORE, I, Benjamin Hall, Mayor of the City of Nevada, do hereby designate the week of May 24th to 31st, 1942, as Victory Pledge Week, and I urge every resident to pledge to the very limit of his or her financial ability, regular savings for the purchase of War Bonds and Stamps.

I FURTHER URGE each and every resident, to show the utmost courtesy and respect to all War Bond Workers, and to cooperate with and assist them in every possible way, to the end that their difficult task may be abundantly successful and a credit to the entire community.

IN WITNESS WHEREOF, I Have Hereunto, set my hand and caused the Seal of the City of Nevada to be affixed, thereto, this 23rd day of May Nineteen hundred and forty-two.

BENJAMIN HALL,
Mayor of the City of Nevada.

Attest: GEORGE CALANAN,
Clerk of the City of Nevada.

New Indian Flat Route To Eliminate 25 Curves

The grading on the state highway route up Broad Street direct to Indian Flat, which will eliminate 25 curves and shorten the present route distance by one half mile, is now one third complete.

State Highway Engineer A. C. Irish said the new route will be completed by September. Thirty men are employed on the job which started immediately after the widening and regrading of the highway in the South Yuba Canyon, on both sides of the river, was finished.

The new route to Indian Flat in almost on a direct line. The road goes up West Broad Street past the Catholic Cemetery and Herschmann's Diggings. The route is south of the Nevada and Pennsiylvania Mines and North of the Grover Murphy Mine.

Engineer Irish said the new stretch of highway has but five curves and these were all wide sweeping turns. The present road, which has 25 turns over the several miles to Indian Flat, is narrow and dangrous.

Most of the new road passes over land owned by Dr. Carl P. Jones. The state purchased rights of way from Dr. Jones.

MWPL TO VOTE THURSDAY ON NEW CONTRACT

A new working agreement between the Mine Workers Protective League and the mine operators will be voted upon by the members of the Nevada County independent labor union on Thursday.

The agreement was discussed at a mass meeting held in Grass Valley last night but the nature of the proposal which will be voted upon Thursday was not divulged by League President G. J. Hoskins.

The present contract between the league and the mines of his county, except for the Lava Cap, expires on June 30th.

The polls for the voting will be open from 7 a. m. until 7 p. m. Thursday. The voting will take place at the Strand Auditorium in Grass Valley.

IMPORTANT BPWC MEETING WILL BE HELD WEDNESDAY

A very important meeting of the Nevada City Business and Professional Women's Club will be held Wednesday night at 7 o'closk at the National Hotel.

Reservations have been made for all members of the club but the reservations can be cancelled by calling Mrs. Richard Worth at the National Hotel.

Mrs. Isabel Hefelfinger will preside over the business meeting.

NEW HOME

CAMPTONVILLE, May 25.—Merle C. Butz has started the contruction of a new home for himself and mother at Celestial Valley to replace the old family residence that was burned down a few weeks ago. The new building is well along and will probably be ready for occupation within a month.

Searchers Find Lost Mining Man

Army Adams, superintendent of the Poverty Hill Mine near Scales in Sierra County, was found yesterday afternoon near the Slate Creek bridge by one of a party of 35 searchers who had combed the mountainous district since Thursday for the mining official. Adams was reported missing Wednesday night.

When found Adams was suffering from hunger and exposure and a head injury but after a few days rest at his home in Grass Valley he is expected to be back in normal health.

Adams told his son, Jack Adams of Grass Valley, who with Sheriff W. D. Johnson of Sierra County led the search, that he was swept off his feet by a sudden unexpected flow of water in the drain tunnel at the mine and rolled for a distance down the flume. When he groped to his feet his head struck a plank of the flume and the blow dazed him.

In a semi-conscious condition, Adams wandered away and when he regained his senses hours later he realized he was lost. The head injury caused Adams to occasionally lapse into a daze but when found near the Slate Creek bridge he was walking and headed back toward the mine. The Slate Creek bridge is about six miles from the mine.

The only food Adams had between the time of the accident Wednesday and when found yesterday afternoon was a small amount of corn meal and a few potatoes which were in a cabin he happened upon.

Adams is the father in law of Mrs. Dorothy Thomas Adams of Nevada City and is well known here as well as in Grass Valley.

CEDRIC PORTER ROTARY SEC.

The Nevada City Rotary Club directors have selected Rev. Cedric S. Porter as secretary of the local club to succeed Fred Garrison, who has left for army service.

Rev. Porter became a member of the Rotary Club here recently, will commence his duties at Thursday's meeting.

RANGER PAUL CASE ARRIVES IN NEVADA CITY WITH FAMILY

Forest Supervisor Guerdon Ellis of the Tahoe National Forest reports that Ranger Paul C. Case has reported for duty as district ranger of the North Bloomfield district. Ranger Case has been assigned to this district to take the place of Ranger Anselmo Lewis, who was called to service in the army.

Ranger Case has had fourteen years of experience including fire contol, range management and timber sales. He worked for two years on timber sale work with the Indian Service on the Klamath Indian Reservation. He then served as district ranger on several districts of the Los Padres forest. He came here from the Monterey district.

Ranger Case has moved his family from King City to Nevada City where his headquarters are located.

MRS. RALSTON IMPROVING

Mrs. David Ralston, who is recovering in the St. Luke's Hospital in San Francisco from an operation, will be able to return home soon to further convalesce.

This was the good news given to the many friends of Mrs. Ralston by Rev. Ralston when he came to Nevada City to conduct services at the Methodist Church yesterday. Rev. Ralston spends the week days with Mrs. Ralston.

PARTICIPATE IN RECITAL

Mary Jane Hawkins and Ann Tucker of Nevada City were participants in the annual music recital given Friday night at the St. Mary's Academy in Grass Valley.

Leave For San Francisco—

Mrs. E. T. R. Powell and Ed Powell, her son, left Saturday to spend a few days in San Francisco.

Caught in the Riffles

Ted Ness of Piety Hill section thinks it about time to move into town when he is so far out in the wilds that hen quail become busy taking his banty chicks away from the mother.

For the last month he has noticed a quail at intervals venture close and finally into the checken yard. The peculiar actions of the bantam hen for the last few days led him to investigate. A mother quail was putting her whole day into trying to lure the chicks away from the banty mother—and she was doing very well—that is 'till Ted caught her at it.

He put the bantam mother and her chicks in a fine wire cage—then watched proceedings from a nearby bush (there's lots of them where he lives). In a few minutes Mrs. Quail came slipping back from down the canyon and called softly toot-toootoot- toooootooot, and believe it or not, the chicks stopped feeding the special food Ted gives them and started for the large open spaces. The wire seriously interfered with that, so they just stood in a row and shrieked. A more disgusted bantam hen couldn't be imagined. The look she gave them all but said: "What has she, that I haven't got?"

Night comes on and the poor lonely little quail unable longer to get an answer from the sleepy chicks, hops to a manzanita limb and fitfully dozes the night away.

The answer to this must be: A prowler has stolen her babies, probably before she was very well acquainted with them. Now she is sure she has found them again.

Ted says that doesn't explain the chicks actions unless the wilds of Piety Hill has taken them over. He states he has unexplained tendencies, too, occasionally—like hating to shave and his wife says he bought a sheep skin coat last winter. Oh, well.

Jehovah Witness members, who openly boast of their refusal to salute the flag, even in wartime, and attempt to spread their un-American beliefs through the selling of literature on city streets, found out here Thursday that Nevada Cityans are losing all patience with them.

About a dozen of the Jehavahites, armed with their Watchtowers, sought to peddle the literatue to local residents. The presence of these Jehovahites has long irked many residents of the community. Among those who dislike the street solicitation are John O'Neill and Ed Martine so these two Thursday picketed the Jehovahites with banners reading: "These people do not salute the American Flag!"

No doubt the picketing nettled the Jehovah Witnesses but they continued to remain on the street.

Some one proposed the idea of having a group of high school girls sing "God Bless America." That was too much for the Jehovahites. They disappeared.

Ed Smith, one of the Jehovah Witness members has resigned from the employ of the Nevada County Narrow Gauge Railroad, effective June first.

Bill Bennett suffered a slight touch of nostalgia when the transport he sailed on landed in Australia. For a short time he thought he was sailing up Wolf Creek in our sister city. From a port hole on the deck below him he heard a familiar dialect with one United Nations soldie saying to another:

"We're 'ome, 'Halfred."

Today's Victory Gardens makes us reminisce of the War Gardens of the First World War. We school kids had to raise them and were marked on report cards by visiting teacher as in other studies. We remember many a 'teen age farmerette who passed in parsnips but flunked in turnips!

The Grass Valley Miners scored six runs on 12 hits to defeat the Oroville Olives by a 6 to 2 score in Grass Valley yesterday afternoon.

Pat Hurley pitched six hit ball for the Miners and helped win his own game by getting two hits, one a double with the bases full. Bud Paynter hit safely three times in four trips to the plate.

LISTEN, NEVADA CITY!

Listen for the Victory ring of today's Minute Man sometime during this week.

When you answer the doorbell give the Minute Man a minute to sign your pledge to buy War Savings Bonds or Stamps regularly every payday until the enemy is subjugated.

Following the example of the Minute Men of Concord and Lexington in 1775, thousands of modern Victory Men and Women of California are organizing to do their bit in the statewide Pledge Victory campaign that began yesterday and ends on Memorial Day.

"This campaign to obtain solemn pledges of the citizens of California, I believe is as important as the determination of our workers and farmers for all out production and of our military organizations to maintain our lines of offense and communication," declares War Savings Chairman Mrs. Paul Kemper. "The first line of victory is on the home front, and the first line on the home front is dollars to get the raw materials and convert them into utensils of war."

California has been assigned a quota of $40,011,100 for May and subsequent months will bring larger quotas as it is the wish of the Treasury Department to sell at least a billion dollars worth of War Bonds nationally every month. The national total quota for May is $600,000,000.

Emulating the "Midnight Ride of Paul Revere," today's Minute Men will visit every home in the state to "raise the alarm" in asking every man, woman and child to sign a solemn pledge to purchase War Bonds or Stamps at stated intervals out of current income. The pledge is not a contract, it is a promise to invest a stated amount in the nation so that victory can be won. All the information will be held in strictest confidence and for every $75 invested the government will return $100 upon the maturity of the War Bond. The pledges will permit the government to estimate as accurately as possible its future funds from voluntary investment.

The widespread objective of the Minute Men Mrs. Kemper explained, is threefold.

First, to make every man, woman and child a shareholder in America. Second, to raise money through voluntary purchase of War Bonds and Stamps to help meet the cost of total war, and third, this money lent the government is taken out of competition for consumer goods, thereby preventing inflation and building up a cushion of savings for the individual when victory is won—for if there is no victory there will be no Free America.

"Give the Victory Minute Men a minute when he calls on you," urges Mrs. Kemper. "You can help him by staying home during the week of May 24 until you have given him a minute."

RED CROSS IS 61

Last week was the 61st birthday of both an organization and an ideal, and never in the intervening period have the two lost touch with each other.

In war and in peace, in pestilence, famine, fire and flood, the American Red Cross has a glowing record of service to humanity both here and abroad in the 61 years since Clara Barton organized an American society of the international Red Cross which had been formed at Geneva, Switzerland, some 17 years earlier.

The multifarious and world girdling activities of the Red Cross are too well known to need repeating or to require a birthday message in the form of publicity buildup.

The Red Cross was too busy on our far flung battlefields to make a big splash in celebration of its birthday. It will simply continue with its countless deeds of mercy and service for the soldiers at the front, their loved ones at home and the disaster-stricken wherever they may be—just as it did in the past and as it will in the future.

The only birthday celebration the American Red Cross desires, in fact, is the knowledge that somewhere a life is being saved or a home made brighter because of the ideal that was born 61 years ago.

TWO EXPLOSIVES PERMITS NEEDED

The new Federal regulation relative to the need of obtaining licenses for using or handling explosives should not be confused with the fire prevention requirement of obtaining a blasting permit under the state law, advises Forest Supervisor Guerdon Ellis of the Taahoe National Forest.

Anyone wishing to buy, use or handle explosives must obtain the federal license for such action before a blasting permit may be obtained. The licenses in Nevada County can be obtained from the county clerk in Nevada City by applicant in that vicinity, while applicants in the Lake Tahoe area can obtain such licenses from Justice of the Peace Evelyn Bliss at Tahoe City, who is also authoized to issue licenses in other counties near the Lake Tahoe area. Applicants must appear in person to apply for such licenses and the fee for each license is twenty five cents, according to the provisions of the law.

After obtaining the federal license of blasting is to be done between April 15 and December 1 in areas in California having forest fire hazard, a blasting permit must be obtained from the nearest ranger or firewarden, Supervisor Ellis states.

OPTOMETRY TO AID WAR WORK

By Ralph Barstow, Director of Economics of Optometric Extension Program, before the members of the Sacramento Valley Association of Optometrists.

The great demand for skilled labor in defense plants has revealed the considerable lack of visual skills on the part of these wokers and optometry is going to do its share in the national defense by (1) enabling employment managers to "screen out" those workers who lack the necessary skills, or to place them in departments where their visual capabilities will permit them to be of most service and (2) by actually training the eyesight and skills of workers so they can do the precise and difficult work needed by modern manufacturing standards.

JUST ROLLING HIS HOOP

HUSH! S-SHUSH!

News in Rhyme over KJBS
Written by Harley M. Leete, Jr.

Perhaps you do or don't like quiet,
Or have never had a chance to try it.
Well—a quiet spell will be here soon—
From the last of May, 'till the tenth of June.
That's National Noise Abatement Week;
Noises formerly harsh must sound more meek.
Less noise is now a war time "must";
Not because your ears are going to bust,
But because efficiency falls low,
When ears are assaulted by too loud a blow.
A jangling bedlam only serves,
To prey upon the workers' nerves.
The decibel curve has got to drop,
And needless noise must presently stop.
Car horns were once the worst offender,
Whether honked by a borrower or a lender;
Let's neither borrowers nor honkers be,
Nor go upon a raucous spree.
Some sounds, of course, delight the ear,
While others make one leap with fear.
While we're reforming sounds and such,
Heres a thing we'd all like much.
The alarm clock has a nasty ring,
In fact, it's really an odious thing.
Every morning with fiendish yell,
It lets go a blast on a hard steel bell.
If noise abatement can forge ahead,
And devise a new way to get us from bed,
We'd all be grateful, heart and soul,
If a clock could play a pleasanter role.
Frankly, we welcome this hush-hush plan,
And we'll help as quietly as we can.
So if this thought should get around,
Let it circulate sans too much sound.
Let's welcome in the week of hush,
With the official password—
sh—sh—shush!

MAMMOTH RODEO AUBURN MAY 31

Plans for the mammoth amateur rodeo to be staged at the Placer District Fair Grounds a week from Sunday are progressing nicely according to Tom Ridinger, manager of the af- The stock of Bob Barney of Perkins especially trained for rodeo work will be used in the events. The O'Neill twins of Fair Oaks, rodeo clowns will be on hand to do the funny business.

Seven big events are listed on the posters which have been broadcast throughout the northern part of the state. Ridinger believes it will be one of the biggest events he has ever staged.

Enthusiasm among rodeo followers is being whipped to a high pitch and a large crowd is anticipated from all section of northern California. Ridinger states that he will conform to the rules of the army to allow a crowd of not more than 5000 on the grounds.

NUGGET ADS PAY

From where I sit . . .

by Joe Marsh

HAVE you ever thought how much a million dollars really is? Sure is an awful lot of nice things a fellow could do with a million dollars . . . if he had it. A million dollars is a *lot* of money.

* * *

Just think . . . it would take about three weeks, counting as fast as you could 24 hours a day, just to count up to a million.

I read in the paper the other day that the beer industry pays more than a million dollars a *day* in taxes . . . Federal, State and local. Every day . . . more than a million dollars.

I guess the government is glad to get that help these days, what with a war to win and pay for.

* * *

Of course, not all of that beer tax money goes to the Federal government. Quite a lot of it goes to the States and is used for such useful purposes as public health, emergency relief, old age assistance, education and public welfare.

Farmers surely ought to like the beer industry, too, from what I hear. Last year the brewers bought nearly two *billion* pounds of barley malt and nearly half a billion pounds of corn and corn products. And plenty of rice and hops, too. That's a lot of farm products.

Back around '33 and '34, when the tough old depression was hitting all of us pretty hard, farmers were certainly glad to sell those extra crops that beer bought from them. And come to think of it, when beer came back it made lots of new jobs for plenty of other people, too. City folks and country folks both.

* * *

If I hadn't gone in for this writing business, I think I'd like to have tried my hand at the brewing business.

I'd like to be making a fine tasting beverage that helps the public treasuries so much and that people can rightly call the "beverage of moderation." That moderation incidentally is another of the fine things about beer.

Hitler Phones The Devil

Hitler phoned up the Devil on his telephone one day—
The girl at central listened to all they had to say.
Hello ('Twas Hitler speaking) Is Old Man Satan home?
Just tell him it's the Dictator who wants him on the phone.

The Devil said: Howdy, Dolph, and Hitler said: How are you?
I'm running your hell on earth, so tell me what to do.
What can I do? The Devil said, dear old pal of mine—
You don't need any help from me—you're doing mighty fine.

Yes, I was doing fairly well until some time ago,
When a man named Uncle Sam told me to go slow.
He said to me: Dear Hitler, we don't want to be unkind,
But you've raised hell enough, so you better change your mind.

I thought his lease-lend plan a bluff—he'd never get it through.
But he put me on the spot, when he told me what to do.
So that's why I called you, dear Devil—I need advice from you,
For I know that you can tell me exactly what to do.

Satan said: Dear partner, there is not much to tell.
For Uncle Sam can make it hotter there than I can down here in Hell.
I've been a mean old Devil, but not half as mean as you.
So the minute you get down here this job is yours to do.

I'll be ready for your coming, I'll keep the fires bright,
And I'll have your room all ready when Sam begins to fight.
Adolph, I know your days are numbered, and there's nothing more to tell—
Hang up the phone, put on your hat, and come on down to Hell.

BARBARA NEAL WILL BE INSTALLED RAINBOW WORTHY ADVISOR

Barbara Neal will be installed as worthy advisor of the Nevada City Assembly of Rainbow Girls tomorrow night in the Masonic Hall here.

The installing officer will be Worthy Advisor Ruth Mitchell. Her assistants will be Margaret Norton, recorder; Elsie Schreiber, chaplain; Betty Ruth Burns, marshall; Lucille Danos, honorary marshall; Ruth Libbey, musician. Mrs. Leland Smith, mother advisor-elect will be installed by Mrs. Doris Foley past worthy matron of Evangeline Chapter, Eastern Star. Mrs. Smith succeeds Mrs. Gordon Bettles, who is now living in Los Angeles.

In addition to Barbara Neal, officers to be installed tomorrow night will include Dolores Rockefeller, as worthy associate advisor; Julia Garrison, charity, Lotus Wales, hope and Betty Ruth Burns, faith.

DEFENSE WORK PROMOTED IN CAMPTOVILLE

CAMPTONVILLE, May 25. — A spirited defense meeting was held Tuesday evening in the auditorium of the local Masonic Hall. The meeting was presided over by Judge A. M. Cleveland and three speakers from out of town were present.

State Fire Warden E. P. Biggs of Dobbins gave an interesting talk on bombs and the fire hazard that faces the state this coming season, and Elwood Stone, an attache of the Tahoe National Forest office at Nevada City, also spoke of fire protection for this season, stating the lack of men available for fire fighting and urging the local people to sign up with his department as volunteer fire fighters.

County Agent Merle Collins of Marysville discussed the formation of a unit of the state militia in this place. He described the organization and told of what its duties consist.

His suggestion was warmly received and several present signed up in the militia following the meeting, and others continued to do so the following day.

During the meeting, some forest service radio equipment was demonstrated by Rangers Stone and Meggers and Assistant Leo Chatfield.

Judge Cleveland called the attention of the public that the defense council had established a central supply of fine river sand for the local people to take to their homes for fire protection.

CAMPTONVILLE NOTES

CAMPTONVILLE, May 25.—Mrs. W. C. Williams and sons Jack and Richard and Mrs. Frank W. Meggers motored to Dixon Saturday to attend the county fair.

Dick Phillips of Hammonton was in town Sunday on a week end visit to his old home here.

Mr. and Mrs. Shirley H. Hanson of Greenville spent Sunday in town visiting her parents Mr. and Mrs. S. F. Price.

Mr. and Mrs. Frank J. Klenzendorf of Woodland spent the week end visiting her father, C. L. Wilson at the Log Cabin.

Jack Kennady left Monday for Ooville on a brief visit to his father there, expecting to leave Thursday for induction in the army.

Miss Oro Turner arrived a few days ago from San Francisco and is visiting her old home here.

M. F. Lusk and Earl Foster came in Tuesday from Placerville with a load of mill machinery.

NEW PLANING MILL SOON FOR CAMPTONVILLE

CAMPTONVILLE, May 25.—Another industry is starting for this community, M. F. Lusk, well known garage man of Dowineville, and F. A. Pendola, Jr., local lumber mill operator, have leased the Johnson field in the upper part of town from the Cleveland family, and have started the erection of a planing mill.

The land leased contains eight acres in which they will maintain a lumber yard. The lumber is to be brought in from the mills, dried, then planed and shipped out in large trucks. For this season they intend to bring the lumber in from the Pendola Mill, but for future plans, the mill will possibly be moved to a near by spot. Part of the machinery was moved in Tuesday from Placerville.

REALTY SALE

CAMPTONVILLE, May 25.—James P. Smith and Byron Smith of Sacramento have purchased from E. L. Cleveland, Lot No. 3, in Block 1, containing almost three acres, in the upper part of town, where they expect to build a home.

James P. Smith served as dispatcher in the local forest service headquarters during the past two fire seasons. He now has a responsible position with the Pacific Telephone and Telegraph Company.

ATTACK! ATTACK! ATTACK!

America's attacking on both the fighting front and the home front today!

We're giving the Axis a bitter taste of what's to come.

We're fighting the inflationary 6th column that blows prices sky high here at home, too.

And every one of us who saves at least 10% of his pay in War Bonds is an important soldier in the attack!

Join the attack yourself!

WHEN THE WAR IS OVER -

IT'S OUR BIRTHADY THIS MONTH. WE ARE IN OUR 67TH YEAR OF BUSINESS AS A TRANSPORTATION SERVICE IN NEVADA COUNTY.

We could gather a nice bouquet of memories, dating from 1876, regarding the changes of transportation and the improvements we have made. We won't. We haven't the time. We are busy planning and doing new things for a future we see—a future as bright as only Nevada County's can be!

These are trying days. War times always are—we know because we, as a company have seen our United States involved in three major wars. This time America is confronted with its biggest job, but that should't cause undue alarm—she doing alright—nothing will stop her from Victory!-

Things have been a bit quiet here—but they were in the other wars, too. In fact this slack-off gives us an opportunity to roll up our sleeves and tackle an expansion program we've planned. Expansion—Now? Certainly! Here's why—

THE NEW ORDER

The Office of Defense Transportation, in order to conserve tires, have imposed certain rules and regulations on the transportation industry as well as local merchants who make deliveries to your door.

We believe these regulations are necessary. They were made to speed up the Victory we know is going to be ours. The regulations as set down may appear a bit stringent but we intend to obey those regulations, both to the letter and the spirit of the law. We ask you as shippers and consignees and customers of long standing to cooperate with us and make the load easier to bear for everyone.

The foresight of this company has made it possible that these two communities need not suffer. We have ample fireproof, concrete storage; we have ample cold storage quarters for perishables.

We hold complete highway operating rights and are in a position to serve you more fully, more competently than before.

For 67 years we have shown our faith in Nevada County; these are two great little communities because you, have shown your faith, too.

When we started construction of the Union Freight and Bus Terminal war clouds were gathering rapidly. Instead of tearing up the blue prints we erected the buildings. And we've done business- When the war came we were outlining plans to launch the big understaking of switching our freight service from steam train to highway service. With war news dinning in our ears we went right ahead and made our rail abandonment application.

We've done this because—

WE BELIEVE ABANDONMENT OF STEAM RAILROAD IN FAVOR OF HIGHWAY EQUIPMENT WILL BE OF MORE ADVANTAGE TO YOU!

Through complete switch-over from rail to highway we can give our customers improved service and gretter satisfaction. It worked when we changed rail passenger service to busses. It will work with freight!-

In making these proposed changes the cities of Grass Valley and Nevada City in no way lose their distinction as railroad-served cities. We are STILL a Railroad company, working under the rules and regulations of the California Railroad Commission and the Interstate Commerce Commission. We STILL maintain our rating and connections with all important transportation companies in California and the nation. We are STILL a bonafide company with a very sizeable investment in Nevada County. We ETILL have set schedules to fulfill and rate regulations to obey. Our freight must travel at time specified—whether it's 1000 pounds or 50 tons. No waiting for a load—when the clock says "Go". we go! For those are the railroad rules we go by—far separated from the code of the transient truck operator, the carrier without a port; who purrs from green field to green field, picking his hauls, choosing his time—a foreigner to the definition of "service."

It's our birthday—our 67th year. We aren't afraid. We are confident—eagerly preparing for days we hope are not too far distant, those days—when the war is over!

TAHOE FOREST UTILIZING ALL AVAILABLE MANPOWER FOR FIRE SUPPRESSION WORK

In order to utilize all available, local manpower for fire suppression work this summer, meetings were held at various places on the Tahoe National Forest to organize volunteer crews for fighting fires in the immediate vicinity of the various towns.

On Tuesday night a mass meeting was held at Camptonville in the Masonic Hall. This meeting was called by Judge A. Cleveland in cooperation with the Yuba County Defense Council and Ranger Meggers of the Camptonville district of the Tahoe National Forest. State Ranger E. P. Biggs of Dobbins gave a talk on the various types of incendiary bombs. Mr. Collins, Yuba County Farm advisor, gave a talk on the state milltia and laid the foundation for the organization of a state guard company in Camptonville. Fire Dispatcher E. M. Stone, of Nevada City told the group of the threat to the Tahoe National Forest due to the shortage of manpower. He stressed the need for volunteer groups in the various towns. He then gave a radio demonstration and described the present use of the radio in fire control and presuppression and its potential use in case of the destruction of telephone lines.

On Friday night, a meeting was held at the Memorial Hall in Downieville under the auspices of the Sierra County Defense Council. Elton O. Carvin is chairman of this council and Sheriff W. D. Johnson is the coordinator of the defense activities. Forest Supervisor Ellis of the Tahoe National Forest and Ranger F. Delaney of the Downieville district with other members of Mr. Ellis' staff attended and helped in the organization of the volunteer units for home defense and fire control work in the various communities.

On Saturday afternoon Ranger Francis A. Land of Sierraville, who represents the Sierra County Defense Council in the east end of Sierra County, arranged to set up an actual fire camp. This camp was organized in cooperation with Bedford, manager of the Clover Valley Lumber Company at Loyalton. During the afternoon volunteers were organized and were drilled with forest service equipment. Forest Supervisor Ellis, with members of his staff, also attended this meeting and aided in the drilling of the volunteer crews.

Three students from Nevada City are numbered among the 4,779 graduates of the University of California, who received their degrees and certificates last week at the commencement exercises.

The Nevada City students are Lucy Frances Proctor, college of Letters and Sciences, Francis Ellanore Johnson and Robert Joseph Tucker, both of the College of Agriculture.

MONDAY AND TUESDAY

WOMAN OF THE YEAR Katherine Hepburn a woman newspaper columnist, feuds with Spencer Tracey, a sports writer. Soon love develops but complications arise due to Miss Hepburn's "career."

WEDNESDAY AND THURSDAY

THE VANISHING VIRGINIAN You'll love this story of a great American and his family . . . so true, so human, so crowded with heart throbs, laughter and tears! Cap'n Bob, portrayed by Frank Morgan, is all fun, fuss and fury, as lovable as famed "Mr. Chips." Kathryn Grayson sings in her first picture since "Andy Hardy's Private Secretary." Other leading screen characters are cast in "The Vanishing Virginian."

This is a message to the thousands of California women who now use the electric range. It is a good and faithful and durable servant in your home. Take care of it. Study again the instruction book that came with your electric range. Save electricity and save your range by cooking at proper temperature and exact cooking time. Unnecessary high-heat wastes kilowatts. Overcooking wastes electricity and destroys nutritive values in foods.

You, as an electric range user, have practiced nutritional cooking for years. You have, for example, cooked vegetables with little water over the glowing coils of electric heat. Your family and your dinner guests know that foods so cooked are tastier. And because foods so cooked are not pot-watched and stirred they are whole and wholesome in nourishing vitamins and minerals.

The correct care and use of your electric range will be a contribution toward winning the war.

ALVAH 'HOOP' HOOPER WILL SEEK ELECTION AS NEVADA CO. CORONER

With capable and satisfactory experience as deputy coroner for Nevada County for six and one half years and possessing a background of 20 years in the mortuary business and funeral directing profession, Alvah (Hoop) Hooper, Nevada County mortician has today formally announced his candidacy for the office of Coroner to be filled by the voters of the county at the August 25 primary election.

Alvah Hooper's all-around knowledge of the duties of the coroner's office, his many years of mortuary contacts and understanding and his associations with people in the industry as well as holding the confidence of the people at large, eminently prepares him for one of the more important offices of county government.

The Coroner nominee realizes that virtually all of the duties of the office are prescribed by legislative statute and in some instances governed by county tradition and custom, but in the administration of those duties he promises, if elected, (1) to give the people of Nevada County an economical management of the affairs of the office, keeping the business of the office in a modern and up-to-date manner without sacrifice of prestige and yet holding the budget within an amount reasonable for the county and no hardship on the taxpayer; (2) to conduct the office in an entirely fair, impartial manner, treating each citizen on a plane of American equality and understanding and (3) conducting office relations in an attitude of courtesy, friendliness and a willingness to ge beyond what is normally expected to solve problems, turn despair to hope and strive for complete satisfaction.

"Hoop" Hooper is a native of Grass Valley and has spent much of his life here. He was affiliated with the former well known firm of Gill-Miller in the mortuary business for seven years, 1906-1913, later moving to the San Francisco bay region where he accepted other employment. However he kept his license and assisted on occasion at the parlors owned by Dan Donovan.

Upon his return to Grass Valley in 1929 he was again active in the mortuary and funeral directing business with one firm for 10 1-2 years and served six and one half years as deputy Nevada County coroner.

For the past two years, the nominee has been the senior member of the firm which bears his name, the Hooper-Weaver Mortuary, Inc.

Hooper's community activities have been widespread. In both service, patriotic and fraternal groups he has been a willing and energetic participant.

At the present time he is finance officer and member of the building committee of the American Legion and has held other offices in the post. He is an active member of the Grass Valley Fire Department; holds membership in the Odd Fellows and Native Sons fraternal organizations and is affiliated with the Rotary Club.

Hooper is the recently elected third vice president of the Nevada-Sierra Peace Offices Association and is active in the deliberation of this agency.

Hooper will make an active campaign throughout the county between now and the election day and invites the discussions of problems and the question by the voting public in connection with his office aspirations and administrative goals.

J. WILLIAMS CANDIDATE FOR CONSTABLE POST

James Williams, experienced law officer of this area, who in addition to service as a city police officer and deuty sheriff, has been constable of Nevada Township since the retirement of William Jeffery a year ago, has announced he will be a candidate for the constable post at the coming election.

Williams has ably handled the duties of the office since his appointment as constable by the supervisors when Jeffery submitted his resignation because of ill health.

The constable candidate has been a resident of this community practically his entire life. Ror years he worked in the mines of this area.

The duties of the constable are principally to serve papers issued from the justice court and to act as the bailiff of the court during trials. The constable, however, is a peace officer and is often called upon to risk his life in the performance of his duties.

The friends of Williams in urging his election as constable proudly point to his fine record as an oficer, not only since he has been constable but during the time he seved as local police officer and deputy sheriff.

Preserve your license plates! It may be a long time before you will be able to get new ones!

This bit of advice came to Nevada County motor vehicle owners today in a bulletin received by The Nugget from James M. Carter, Director of the Department of Motor Vehicles.

Director Carter's bulletin urges the application of one of two good coats of clear spar varnish as the best protection against the elements. The varnish should be applied to the cover strip plates as well as the regulation size to which the "strips" are attached inasmuch as the motorists may be reqired next year to display the 1942 cover strip plates as well as some suitable symbol of 1943 registation.

Navy School at G.E.

Just one evidence of the cooperation between the armed services and our vast industrial army — a school for submarine electricians conducted at one General Electric factory.

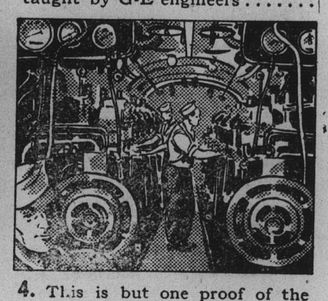

1. Electricity is vital to the running of every submarine. It does an amazing variety of important jobs, from turning the propeller to cooking the coffee.

2. For that reason, there must be well-trained electricians on every underwater craft. At this school, Navy electricians attend classes taught by G-E engineers . . . . . .

3. . . . . . and go out into the shops where they watch workmen construct the same kind of electric equipment that will some day be put in their charge.

4. This is but one proof of the thorough training which the U.S. Navy gives its men, so that the vital equipment of war will always be ready for action.

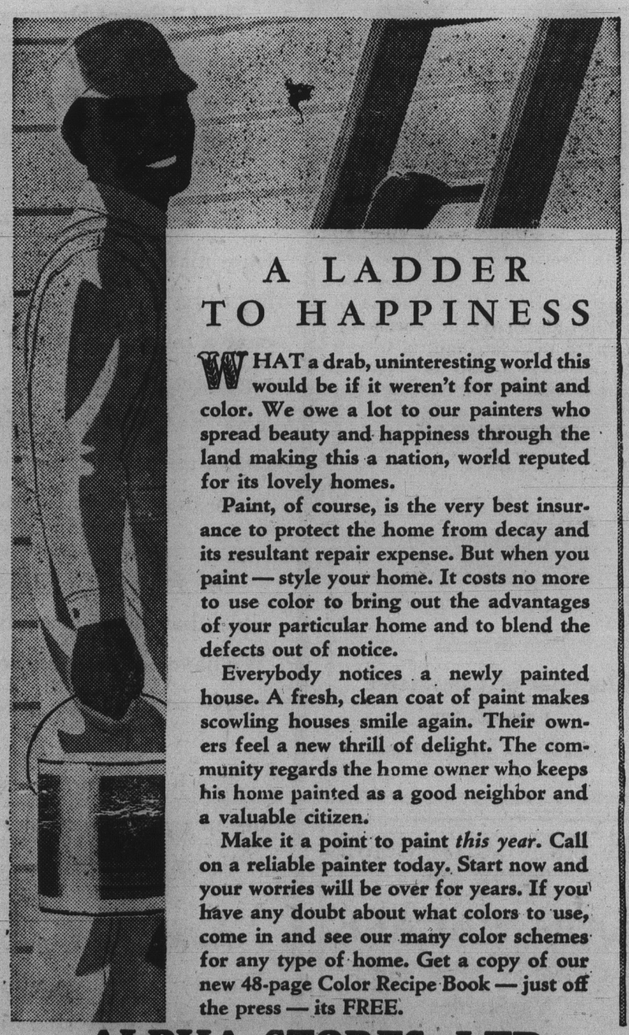

General Electric believes that its first duty as a good citizen is to be a good soldier.

BEAUTIFY YOUR HOME WITH MODERN PAINT COLOR HARMONY

FULLER PAINTS *they last*

A LADDER TO HAPPINESS

WHAT a drab, uninteresting world this would be if it weren't for paint and color. We owe a lot to our painters who spread beauty and happiness through the land making this a nation, world reputed for its lovely homes.

Paint, of course, is the very best insurance to protect the home from decay and its resultant repair expense. But when you paint — style your home. It costs no more to use color to bring out the advantages of your particular home and to blend the defects out of notice.

Everybody notices a newly painted house. A fresh, clean coat of paint makes scowling houses smile again. Their owners feel a new thrill of delight. The community regards the home owner who keeps his home painted as a good neighbor and a valuable citizen.

Make it a point to paint *this year*. Call on a reliable painter today. Start now and your worries will be over for years. If you have any doubt about what colors to use, come in and see our many color schemes for any type of home. Get a copy of our new 48-page Color Recipe Book — just off the press — its FREE.
